FROM BOISE CITY.

A Gossipy Letter from Idaho's Progressive Capital.

HOW THE REPUBLICANS WON,

The State Will Surely Go Democratic Two

The State Will Surely Go Democratic Two Lears Hence—Work of the Legislature.

Bouse Citt. Idaho, Dec. 25.—[Special cofrespondence to The Henaulu.]—Christ mas is duller than was expected, owing to a large number of members of the legislature, attaches and visitors going to their respective homes to remain until after New Year. The different churches, however, had trees, which were nicely decorated and loaded with hardsome and valuations.

New York General Market.

New York General Market. cofrespondence to THE HERALD, |-Christmas is duller than was expected, owing to a large number of members of the legislature, attaches and visitors going to their New Year. The different churches, however, had trees, which were nicely decor-

ated and loaded with hardsome and valun-One defect in the Monroe bill, which is in many respects patterned after the Australian system of voting, is the slackness in providing for absolute freedom of the exercise of the electoral franchise. Some punishments are provided for offering or receiving money or anything of value, romise of office, etc., for votes; also mak-Brimment of the case, for votes; also many kind; but it does not provide punishment for railroad officials, superintendents or employers who transfer men after it is too late to get transfers from new county to another to provide the street from one county to another to provide the street from one county to another to provide the street from one county to another to provide the street from one county to another to provide the street from one county to another to provide the street from one county to another to provide the street from one county to another to provide the street from one county to another to provide the street from one paid mone; to free the street from one of a majority of the mone pieuty of mone, but the Democratic the street from one of the street from the monopolist and jobbery party. Close figurating reveals the fact that its Democratic the monopolist and jobbery party. Close figurating reveals the fact that its Democratic the street from the people know those facts, and the time of course, Democratic United States Senators. The people know those facts, and the street from the stre ing it a penalty to use throats or coercion of any kind; but it does not provide punishment for railroad officials, superinten-

well enough to scare immigrants within the railroad lines, but it will not continue as railroad lines, but it will not consider an important factor in politics. There are many questions of far greater importance to be looked after, and the electors are coming to a full realization of the fact.

A bill is three directions with fifty two coming to a full realization of the fact.

A bill in three directions with fifty two sections in each division, on water rights and irrigation has been prepared for presentation immediately after the registature convenes. As this is the most important matter to be legislated on there is no doubt but that ditch companies composed of eastern monopolists will do all in their power to control the water in their interests and against the farmer. Already propositions have been made to members of that body soliciting support. They want to have authority to charge their own rates and adopt their own means They want to have authority to charge their own rates and adopt their own means of collecting for the next two years. Such a yield on the part of the people through their representatives would be suicidal. When the wedge is once entered it would never be withdrawn, but driven still deeper two years hence. Once in debt to these large companies the fermer would deeper two years hence. Once in debt to these large companies the farmers would be virtually improving their places for the benefit of castern companies. They would be unmerciful and, in five years, at most, secure thousands of acres of our richest lands, and Idaho, instead of being owned by her own people would be controlled financially, politically and socially by millionaires of the east. Such a course must be guarded against, or the bright sky will soon be filled with black clouds and poverty and distress will be on every hand. The representatives of the people, however, have shown a determination to guard the interests of the people, and I believe they will carry out their purpose. The only danger is in hasty legislation.

The best and one of the most important bills passed is one prohibiting the appointment of the propose.

The best and one of the most important bills passed is one prohibiting the appointment of any but electors of each county as deputy skeriffs and deputy constables, police, etc. Armed forces are prohibited from coming into the state, and should any detective firm use men to quell riots they are to be treated a other.

from coming into the state, and should any detective firm use men to quell riots they are to be treated as other murderers. Such a law will be found very necessary when strikes are to be looked after or local disturbances quelled. We need no outside interference in our local affairs, as our county peace officers are capable of attending to such matters.

In Boise Basin, thirty five miles south of bere, the snow fall is very light, which of bere, the snow fall is very light, which casts a gloom over the countenance of placer miners. There has been no rain and the ground is very dry. Unless the snowfall is unusually heavy the placer season next spring will, generally specialing, be a very unprofitable one. The quartz interests, however, are very bright, and there will be thirty or forty more stamps dropping in 1891 than there were this year. Every mill in Boise county pays dividends and there are a large number of mines lying idle that ought to have machinery on them. Banner, Quartzburg, Pioneer, Centerville, Eldorado, Gambriuus and Summit Flat districts are slowly, but surely coming to the front, and the time will come when the rumble of stamps will be heard in almost every canon. The ore is thereboth gold and silver—and all that is needed to thinke a mining section of note is sufficient capital to develop the mines.

DEAN. Pneumonia and Bronchitis Carryoff One-Third

of the Ruman Race.

It is not generally known that pneumonts and bronchitis carry off one-third of the human race, but such are the facts, and what is more surprising, both of the above diseases result from neglecting a common ordinary cold. A cough should never be neglected. If it is, every time you catch cold you cough harder, and it sticks by you longer. Ballard's horehound syrup is the best remedy in the world for pneumonia, bronchitis and all throat and lung troubles. If you have any throat trouble, call for Ballard's horehound syrup and take no other.—10 of the Ruman Race.
